

## Expat in Denmark in **ODENSE**

*Are you interculturally competent? What is the Danish workplace culture all about? And what is NemID exactly?*

### **Be enlightened by Expat in Denmark and International Community Odense's program!**

Expat in Denmark is the largest community of expats living in Denmark. Managed and founded by the Confederation of Danish Industry on behalf of our members companies, we are here to help international employees and their families settle in and feel at home.

We also facilitate a platform where Danes and internationals can meet and socialize. Starting in the spring we present a series of activities in English tailored for the large, vibrant international community in Denmark.

**Confederation of Danish Industry manages the network Expat in Denmark.**
